Velocity Metalworks Sustainability Policy & Carbon Reduction Commitment

Purpose

Velocity Metalworks is committed to conducting business responsibly by integrating sustainable practices into our operations while delivering exceptional quality, service, and value to our customers.

We believe environmental responsibility, operational excellence, and continuous improvement work together to create long-term value for our customers, employees, suppliers, and communities.

Our Commitment

Velocity Metalworks commits to reducing our **Scope 1 and Scope 2 greenhouse gas emissions by at least 30% by 2030** using 2026 as our baseline year.

This commitment supports our customers' sustainability initiatives while strengthening our own manufacturing operations through practical, measurable improvements.

Our Approach

We will pursue this commitment by:

- Improving energy efficiency throughout our facilities.
- Applying Lean Manufacturing principles to eliminate waste.
- Investing in efficient manufacturing equipment and technologies.
- Optimizing lighting, HVAC, compressed air, and production systems.
- Promoting responsible recycling and material utilization.
- Evaluating opportunities to reduce environmental impacts throughout our operations.
- Monitoring progress and periodically reviewing our environmental performance.

Measuring Progress

Velocity Metalworks will measure and manage greenhouse gas emissions using recognized greenhouse gas accounting principles and maintain appropriate documentation to support our progress toward our 2030 target.

We are committed to transparency, accountability, and continual improvement as our business continues to grow.

Supporting Our Customers

Our sustainability efforts are designed to support the evolving expectations of our customers while strengthening domestic manufacturing and building resilient supply chains.

By integrating environmental stewardship into our business practices, we help our customers achieve their sustainability objectives while maintaining the quality, responsiveness, and reliability they expect from Velocity Metalworks.

Governance

This policy is reviewed periodically by company leadership to ensure it remains aligned with our strategic objectives, customer expectations, and continuous improvement initiatives.

Our Mission

We manufacture metal solutions so customers who value Made in America can compete and win.
